DURHAM, NH - New Hampshire residents give newly-inaugurated President Joe Biden good marks for his handling of COVID-19 and his overall job performance so far. However, residents are split on whether Biden will be a successful president and whether the country will become more unified during his tenure in office. Most Granite Staters want Biden and Congressional Republicans to work with one another, even if it disappoints their bases. Majorities favor sending additional stimulus checks to individuals and support raising the minimum wage to \$15 per hour.

These findings are based on the latest **Granite State Poll\***, conducted by the University of New Hampshire Survey Center. Two thousand and twenty-five (2,025) Granite State Panel members completed the survey online between January 21 and January 25, 2021. The margin of sampling error for the survey is +/- 2.2 percent. Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the NH Secretary of State and 2020 election results in NH. Granite State Panel members are recruited from randomly-selected landline and cell phone numbers across New Hampshire and surveys are sent periodically to panel members.

### Presidential Approval

More than half (55%) of New Hampshire residents approve of newly-inaugurated Joe Biden's performance as President so far, 37% disapprove, and 7% neither approve nor disapprove or don't know. Biden's initial net approval rating (the percentage who approve minus the percentage who disapprove) among Granite Staters is +18%, significantly higher than former President Trump's net approval rating in February 2017 (-5%) but lower than former President Obama's net approval rating in February 2009 (+27%). Nearly all (98%) Democrats approve of Biden's performance but only 43% of Independents and 16% of Republicans agree.

### Presidential Approval - Joe Biden

\* We ask that this copyrighted information be referred to as *the Granite State Panel*, conducted by the University of New Hampshire Survey Center.

## Handling of Coronavirus (COVID-19) Situation

Granite Staters are much more likely to approve of President Biden's handling of COVID-19 than they were to approve of former President Trump's handling. Currently, 59% approve of Biden's handling of COVID-19 while 30% disapprove. Net approval for Biden's handling of COVID-19 (+29%) is higher than at any point in Trump's tenure.

### Approval of President's Handling of Coronavirus (COVID-19) Situation

- Nearly all Democrats (98%) approve of Biden's handling of COVID-19. In December, only 2% of Democrats approved of President Trump's handling of COVID-19. Independents are slightly less likely to approve than they were in December (48%, down from 56%). Republicans are significantly less likely to approve, only 22% approve of Biden's handling of COVID-19 compared with 76% who approved of Trump's handling in December.
- Respondents aged 18 to 34 (+46 percentage points) and those aged 65 and older (+29) are more likely than in December to say they approve of the President's handling of COVID-19, while those aged 35 to 49 (-13) are less likely to say so.
- Women (+37 percentage points) are more likely than in December to approve of the President's handling of COVID-19 while opinion among men is unchanged (-1).
- Respondents who have completed postgraduate work (+51 percentage points) and college graduates (+30) are more likely than in December to approve of the President's handling of COVID-19.

### Approval of President's Handling of Coronavirus (COVID-19) Situation - Change from December 2020 to January 2021

## Presidential & Vice Presidential Favorability

Nearly half (48%) of New Hampshire residents have a favorable opinion of Biden, 39% have an unfavorable opinion of him, 12% are neutral, and 2% are unsure. Biden's net favorability rating, the percentage who have a favorable opinion minus the percentage having an unfavorable opinion is +9, higher than any point in the past year. Biden is very popular among Democrats (+91 net favorability rating), slightly unpopular among Independents (-18), and very unpopular among Republicans (-69).

### Biden (D) Favorability

Granite Staters are more split on their opinion of Vice President Kamala Harris - 42% have a favorable opinion of Harris, 42% have an unfavorable opinion of her, 12% are neutral, and 4% are unsure. Harris's net favorability rating is 0, largely unchanged since October 2020 (+3). Harris is very popular among Democrats (+85 net favorability rating), somewhat unpopular among Independents (-27), and very unpopular among Republicans (-79).

### Harris (D) Favorability

### Expectations for Biden Presidency

One-third (32%) of Granite Staters say that they are enthusiastic about Biden becoming President, 23% say they are satisfied with this happening, 23% are dissatisfied, 18% are angry, and 5% don't know or are unsure.

Two-thirds (66%) of Democrats say they are enthusiastic about Biden becoming president. However, only 2% of Republicans are enthusiastic and 35% are angry about Biden becoming President.

### Feelings About Biden Becoming President

President Biden called for unity in his inaugural address, but New Hampshire residents are skeptical this will happen. Thirty-six percent of Granite Staters believe that the country will become more unified under the Biden presidency, 37% think the country will become more divided, 17% believe the unity of the country will stay about the same under the Biden presidency, and 11% don't know or are unsure.

### Believe Country Will Become More Unified or Divided Under Biden

Respondents are strongly divided by partisanship in their assessment of whether the country will become more unified or divided during the Biden administration. Nearly two-thirds (65%) of Democrats say the country will become more unified while most of the rest say it will remain about the same. However, a plurality of Independents (44%) and seven in ten Republicans (70%) think that the country will become more divided.

#### Believe Country Will Become More Unified or Divided Under Biden - By Party ID

Granite Staters are about equally divided in their prediction of how successful of a president Biden will be in the long run: 35% think he will be a successful president in the long run, 33% think he will be an unsuccessful president, and 32% say it's too early to tell.

As with other questions, responses are closely correlated with partisanship: 66% of Democrats think that Biden will be a successful president in the long run but only 30% of Independents and 6% of Republicans agree.

#### Prediction on Biden's Success as President

## What Should Biden and Congressional Republicans Do

When asked what Biden should do now that he's been inaugurated, 74% say that Biden should try to work with Republican congressional leaders to accomplish things, even if it means disappointing some people who voted for him. Only 17% say that Biden should stand up to Republican congressional leaders on issues that are important to his supporters, even if that means it's harder to address critical problems facing the country, and 10% say they don't know or are unsure what Biden should do.

Democrats are more divided on what Biden should do, but a majority (56%) say that Biden should try to work with Republican congressional leaders even if it means disappointing his voters, while 35% want him to stand up to Republican leaders.

### Opinion on What President Biden's Strategy Should Be Now

When asked what Republican congressional leaders should do now that Biden has been inaugurated, 70% say that Republican congressional leaders should try as best they can to work with President Biden to accomplish things, even if it means disappointing some Republican voters. Twenty-seven percent say that Republican leaders should stand up to Biden on issues that are important to Republican voters, even if it means it's harder to address critical problems facing the country, while 3% say they don't know or are unsure what Republican congressional leaders should do.

While a majority (56%) of Democrats prefer that Biden try to work with Republican congressional leaders, a majority (52%) of Republicans want their congressional leadership to stand up to Biden even if it makes it harder to address critical problems. Forty-five percent of Republicans want their congressional leaders to try to work with Biden to accomplish things even if it means disappointing Republican voters.

### Opinion on What Congressional Republicans' Strategy Should Be Now

## Opinion on Early Biden Administration Policy Decisions

President Biden has asked Congress to pass legislation to raise the minimum wage to \$15 an hour and a narrow majority of New Hampshire residents are in support of this policy: 53% strongly (36%) or somewhat (17%) support raising the minimum wage to \$15 an hour, 39% strongly (28%) or somewhat (11%) oppose this move, 7% are neutral, and 1% don't know or are unsure.

Democrats (94%) are overwhelmingly in favor of raising the minimum wage to \$15 an hour but Independents are somewhat against it, with 38% in support and 52% opposed. Republicans are adamantly against raising the minimum wage: seven in ten (71%) are opposed and only 15% support it.

### Support or Oppose Raising Minimum Wage to \$15 an Hour

Most Americans received a check recently for \$600 as a part of the most recent stimulus bill. President Biden has proposed sending another check totaling \$1,400. Other political leaders have argued that the newest check should be for \$2,000 while still others argue no additional checks should be sent. Two-thirds (65%) of Granite Staters believe a new check should be sent, but they are divided about whether the check should be for \$2,000 (36%) or for \$1,400 (29%). Twenty-four percent believe that no additional checks should be sent while 11% don't know or are unsure of their opinion on the subject.

The vast majority (90%) of Democrats believe a new check should be sent, and a majority (54%) want that check to be for \$2,000. Fifty-three percent of Independents and 45% of Republicans believe a new check should be sent, with both groups about evenly divided on how much the check should be for.

### Opinion on Next Round of Stimulus Checks

## U.S. Heading in Right Direction or On Wrong Track

Thirty-nine percent of New Hampshire residents believe that things in the United States are going in the right direction, up from 27% in December; half (50%) of Granite Staters believe things are seriously off on the wrong track while 11% are unsure. Granite Staters are nearly as likely to say things are heading in the right direction as they were in February 2020 before the onset of the COVID-19 pandemic.

Following the inauguration of Joe Biden as President, Democrats and Republicans have swiftly changed their opinion on whether the country is headed in the right direction. More than two-thirds of Democrats (69%) say the country is headed in the right direction, up from 4% in December, but only 27% of Independents agree. Twelve percent of Republicans feel the country is headed in the right direction, far lower than in December 2020 (55%) and about equal to September 2016 (10%) before the election of Donald Trump as President.

## Granite State Poll Methodology

These findings are based on the latest Granite State Poll, conducted by the University of New Hampshire Survey Center. Two thousand and twenty-five (2,025) Granite State Panel members completed the survey online between January 21 and January 25, 2021. The margin of sampling error for the survey is +/- 2.2 percent. These MSE's have not been adjusted for design effect. The response rate for the January 2021 Granite State Poll is 36%. The design effect for the survey is 2.5%.

Data were weighted by respondent sex, age, education, and region of the state to targets from the most recent American Community Survey (ACS) conducted by the U.S. Census Bureau, as well as party registration levels provided by the NH Secretary of State and to 2020 election results in New Hampshire.

The Granite State Panel is part of an effort by the University of New Hampshire Survey Center to investigate new ways of gathering and understanding the opinion of New Hampshire residents. Approximately 5,750 New Hampshire adults were recruited from randomly selected landline and cell phone numbers to participate in the panel. Panelists are then asked to participate in online surveys sponsored by the UNH Survey Center.

The number of respondents in each demographic below may not equal the number reported in cross-tabulation tables as some respondents choose not to answer some questions. Due to rounding, percentages may not sum to 100%.

For more information about the methodology used in the Granite State Panel, contact Dr. Andrew Smith at (603) 862-2226 or by email at [andrew.smith@unh.edu](mailto:andrew.smith@unh.edu).
